

Air1 is the only radio station that I listen to. When I moved from MI for school, I was overjoyed to finally have a listening option that fits my lifestyle so perfectly! I love having a station that glorifies God...how many other stations have contests where the prize is a missions trip to Cambodia?? They have relevant news updates, and are very listener friendly. I know that I would not listen to the radio at all if Air1 were replaced; Air1 plays music with a positive message, which is so polar opposite to all the other music on the radio. On the occasions that I do 'channel surf,' all I really hear are songs about sex, sex, more sex, violence, and all sorts of non-uplifting subjects. Air1 really is the positive alternative! Air1 broadcasts music that is indeed in the interest of the public, I know many of my friends and relatives tune in regularly! I would be seriously dissappointed if we lost Air1 in my area!
